Reference List

AHTT, an Australian Heat Exchanger Company with the aim of providing our customers with professional service, economical heat transfer solutions and equipment second to none in regards to performance, quality and price.

In order, to not just meet industry needs and requirements – but exceed them - we have a dedicated sales team with over 40 years combined Heat Exchanger experience.

Our reasons for believing that AHTT has the necessary long term support and product development to satisfy the most demanding thermal duties, stems from the high quality, even on our base price units.

Performance:

Backed by a large engineering based manufacturer.

Extensive R&D is continuing to ensure that an ever larger range of units is made available to meet customer requirements exactly.

Thermal Calculations are undertaken using advanced industry standard parameters.

Extensive contacts and reference sites around the world, over 30 years, in the most exacting industries is testament to the long term quality and performance of these world class Plate Heat Exchangers .

A Selection of the Reference List

Margarine	Food processing	water / water
CIP	Steel Production	Tar / water
Meat processing	Food processing	steam / water
Air conditioning	HVAC, buildings	water / water
Electronics	Components	water / water
Die cooling	Metal finishing	oil / water
Cider cooler	Beverages	cider / water
Yeast cooler	Food processing	yeast / yeast
Zn Solution	Metal industry	Zn solution / water
H2SO4 cooler	Acid production	acid / water
Ice storage	Food processing	water / glycol
Paint cooler	Auto industry	paint / water
Alcohol cooler	Beverages	alcohol / water
Quench oil coolers	Heat treatment	oil / water
15%H2SO4	Metal	acid / water
Caustic soda	Interchange	caustic / caustic
Polymer solution	Chemical industry	polymer / water
Anodize solution	Metal finishing	anodize solution / water
